

POWERBOX200.4HC-V5
UNPRECEDENTED POWER

Modern speakers are more powerful than ever, but vehicles aren't getting any bigger. That's why the VIBE R&D team set out to engineer the ultimate solution — a compact amplifier with colossal performance. The POWERBOX200.4 delivers full-range muscle in a 1Ω-stable design, pushing out up to 550 watts per channel. Built for today's power-hungry speakers, it ensures your system gets the juice it craves, without compromise.

Despite its compact footprint, the POWERBOX200.4 is packed with innovation. A custom-designed, heavy-duty aluminium heatsink to keep things cool under pressure, while power and protect led indicators keep you in control. This amp isn't just powerful it's smart, efficient, and installation-friendly.

Even at higher impedance loads, the POWERBOX200.4 delivers serious output with crystal-clear, distortion-free sound, driving your high-performance speakers to their absolute limit.

ULTIMATE CONTROL:

Featuring full remote gain adjustment, as well as low pass, phase and HP filters this bass amp contains any adjustment you would need for your midrange drivers.

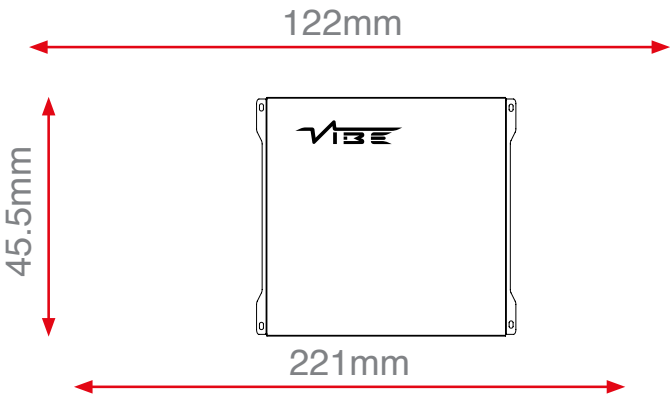

CAREFULLY ENGINEERED:

Built from the ground up to deliver ultimate performance, taking inspiration from our previous powerbox amps we decided to pack in the new technology in a compact frame.

BEST BUILD:

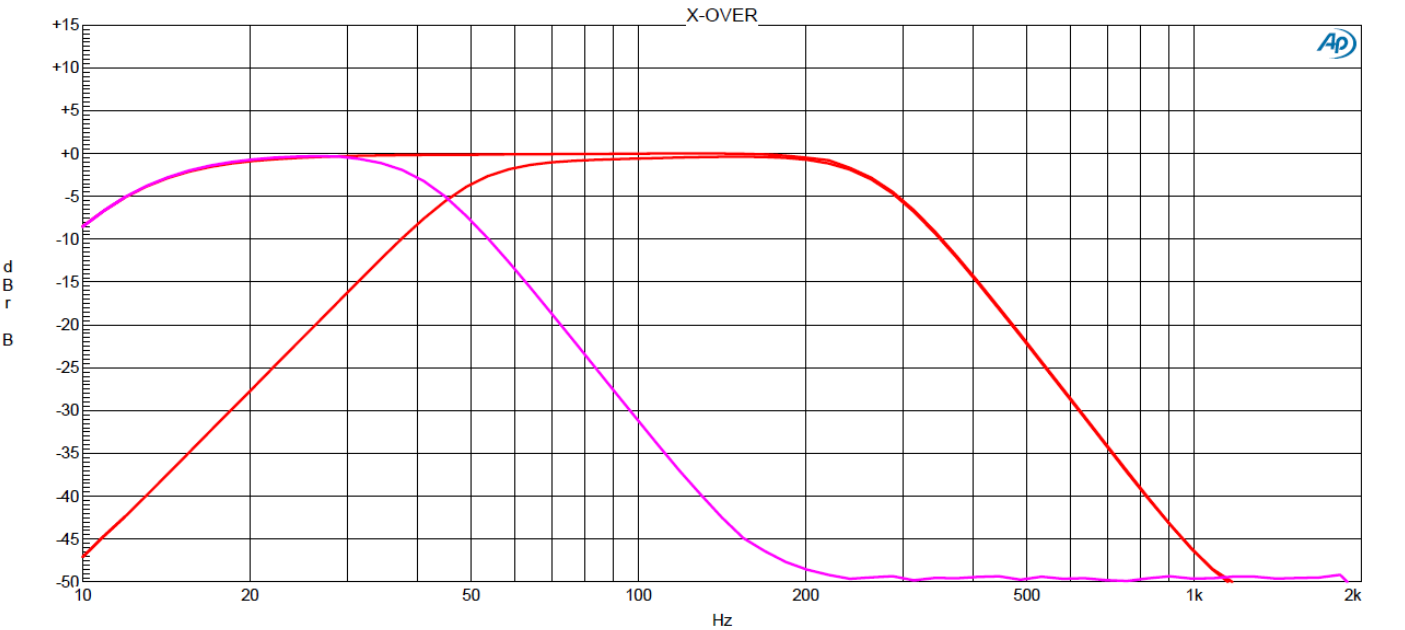

Robust design, utilizing aluminium heat sync to keep internal components cool which are all tied together on a custom VIBE PCB with front facing controls for clean and easy installation connections to the amplifier.

Model	POWERBOX200.4HC-V5
Configuration	Monoblock
Dimensions (H x W x D)	(221 x 122 x 46.5mm)
RMS @ 4Ω	4 x 200 watts
RMS @ 2Ω	4 x 300 watts
RMS @ 1Ω	4 x 550 watts
Frequency Response	10Hz - 250Hz
Crossover Type	LP / HP
Crossover Range	30Hz - 5kHz
Topology	Mini Class D

2200W Stereo Amplifier

FRONT ACCESS CONNECTIONS

Designed with installers in mind these amplifiers allow for easy and cleaner installation with all the wires comming to and from of the amp all located on the one side unlike a traditional amp (top & bottom)

NEW

Brand new design, brand new look. These new POWERBOX amplifiers are not just a revision of the previous models they are brand new and built from the ground up to perform

BEST INTERNALS

Part of VIBE's Powerbox range, engineered in the UK to work for every application.

AMP EXTRA FEATURES

- Phase adjustment 0-180
- LP and HP filters for ultimate speaker crossover controls
- Soft turn on and turn off
- Advanced protection system
- Remote Gain Adjustment
- Oversized 0 Guage terminals
- Custom designed VIBE PCB
- Front access PCB controls
