

POWERBOX 600.2D -V5 / 320.4 - V5 MULTICHANEL PERFORMANCE EVOLVED

Welcome to the next generation of multichannel muscle.

The all-new POWERBOX series expands with high-output stereo and multichannel amplifiers, engineered for those who demand both clarity and raw power.

These amps don't just play loud — they play clean. Designed with versatility in mind, each model offers bridgeable channels for even more output when you need it most. Whether you're building a powerhouse front stage or driving serious sub-bass, POWERBOX delivers uncompromised performance, head-turning sound, and bulletproof reliability.

Class D technology allows for ultra efficiency and high power output, whilst keeping a compact footprint for the amplifier.

Remote Gain allows for specific adjustment of amp output

Built in low pass filter to adjust the *low* frequencies outputted from the amplifier.

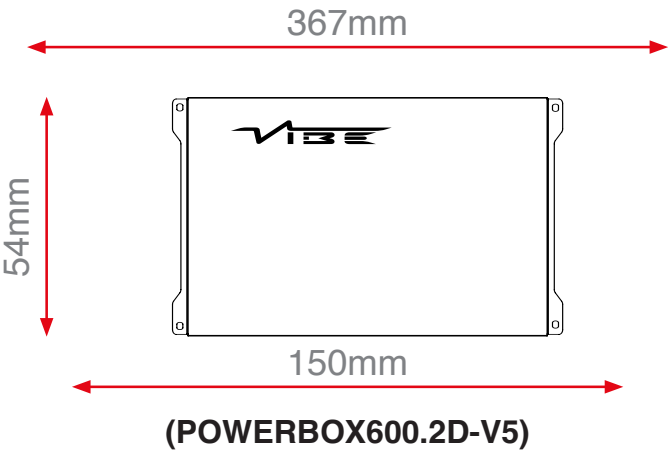

Heatsink with large cross sectional area for maximum heat dissipation.

ULTIMATE CONTROL:
Featuring full remote gain adjustment, as well as High pass, low pass and phase this bass amp contains any adjustment you would need for a speaker.

BEST FEATURES:
Bridgeable channels for flexible system building and max output as well as a significant power output for maximum headroom keeping your speakers distortion free

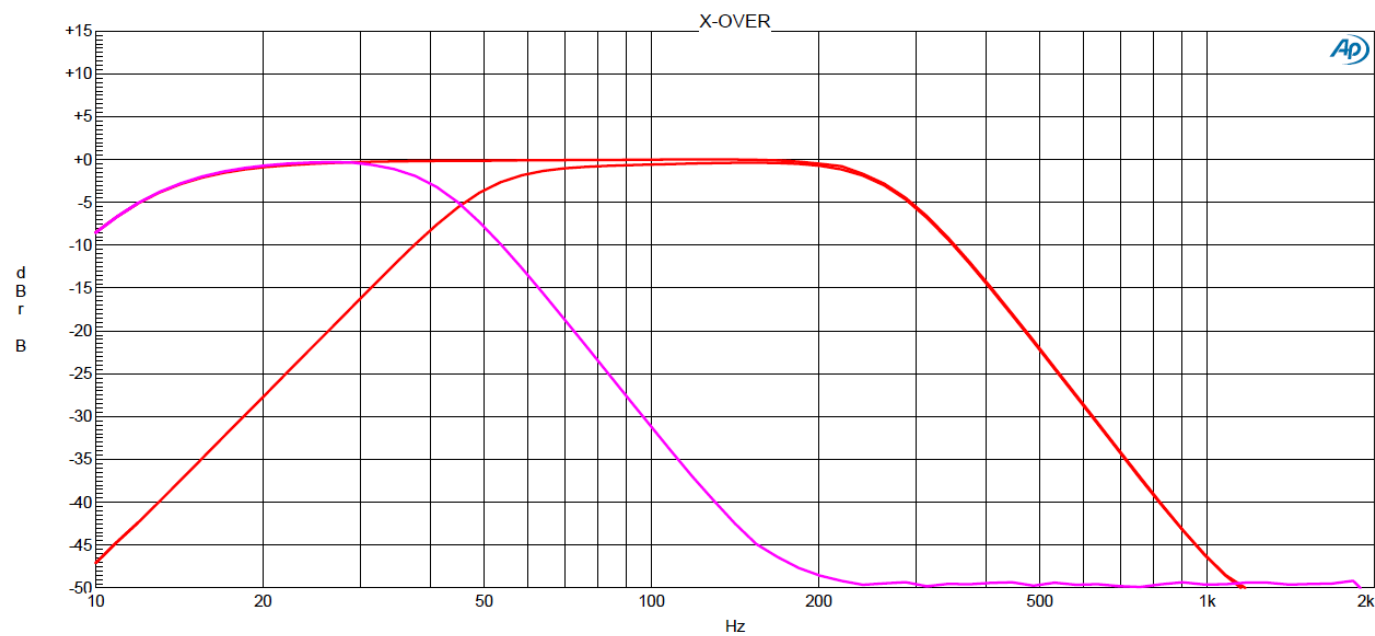

BEST BUILD:
Robust design, utilizing large aluminium heat sync to keep internal components cool which are all tied together on a custom VIBE PCB.

Model	POWERBOX600.2D-V5	POWERBOX320.4-V5
Configuration	2 Channel	4 Channel
Dimensions (H x W x D)	(54 x 376 x 150mm)	(54 x 376 x 150mm)
RMS @ 4Ω Mono	2 x 640watts	4 x 320watts
RMS @ 2Ω Mono	2 x 1150 watts	4 x 510 watts
RMS @ 4Ω Mono	1 x 2000 watts	2 x 1000 watts
Frequency Response	10Hz - 20kHz	10Hz - 20kHz
Crossover Type	LP / HP / FLAT	LP / HP / FLAT
Crossover Range	15Hz - 15kHz	15Hz - 15kHz
Topology	Class D	Class D

Power box

2/4 Channel Amplifiers

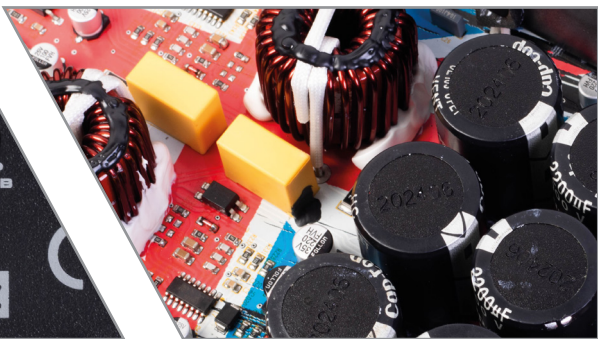

FEATURE RICH

Power, Protect and clip lights to ensure this amp is safe when setup and continue working well.

NEW

Brand new design, brand new look. These new POWERBOX multi channel amplifiers are not just a revision of the previous models they are brand new and built from the ground up to perform

BEST INTERNALS

Part of VIBE's Powerbox ranged engineered in the UK to work for every application.

AMP EXTRA FEATURES

- Phase adjustment 0-180
- LP and HP filter for ultimate speaker controls
- Soft turn on and turn off
- Advanced clip and protection system
- Remote Gain Adjustment
- Oversized 0 Guage terminals
- Custom designed VIBE PCB
